## EXPERIENCE

### AI Intern – Infosys Springboard Feb 2026 – Apr 2026

- Engineered PolicyNav, a **production-grade NLP** application leveraging **RAG architecture**, **LLM**-powered semantic search, and **LangChain**-based document ingestion to automate large-scale policy Q&A at scale.
- Developed **scalable** AI pipelines integrating **FAISS** vector embeddings and retrieval optimization in **Python** with **Hugging Face** transformers, improving document query precision for large corpora.
- Delivered backend preprocessing modules via **Agile** sprints, translating ML/NLP research into **production-grade**, deployable **Streamlit** solutions with **SQLite** persistence.

**Tech Stack:** Python, Hugging Face, LangChain, FAISS, Streamlit, SQLite

## PROJECTS

### GreenOps Sentinel – [GitHub](#) May 2026

- Architected a **Java 21 & Spring Boot** cloud infrastructure auditor using **AWS SDK v2** and **Amazon CloudWatch**, enabling continuous **EC2** telemetry monitoring and **automated observability** across **distributed** systems.
- Integrated **Google Gemini LLM** via **Spring AI** for AI-driven **FinOps** analysis, generating actionable recommendations to rightsize or terminate idle servers, reducing cloud costs and carbon footprint.
- Containerized the full **microservice** with **Docker & PostgreSQL**, implemented **Spring Data JPA** for schema automation, and built a **GitHub Actions CI/CD** pipeline enabling **automated** deployment and continuous integration.

**Tech Stack:** Java 21, Spring Boot, AWS SDK (EC2, CloudWatch), Spring AI, PostgreSQL, Docker, GitHub Actions, Maven

### Email Assistant Writer – [GitHub](#) Feb 2026

- Developed a **production-grade RESTful** API backend using **Spring Boot** integrating Google Gemini API to auto-generate professional email replies with configurable tone via dynamic prompt engineering.
- Implemented secure API authentication via environment-based configuration and a layered controller-service architecture ensuring maintainable, **scalable**, **Microservices**-ready backend design.

**Tech Stack:** Java, Spring Boot, REST API, Gemini API, Maven

### AI Image Analyzer – [Live Demo](#) Jun 2025

- Architected a **serverless, cloud-native** image labeling system using AWS **Rekognition & Lambda**, achieving **95%** accurate AI-based object detection and eliminating manual classification workflows.
- Automated the cloud backend pipeline with **Lambda, S3, API Gateway**, and **IAM** security controls for event-driven processing; deployed optimized **React** frontend on **Vercel** demonstrating **full-stack** cloud engineering.

**Tech Stack:** AWS (Rekognition, Lambda, S3, API Gateway, IAM), Serverless, React, Vercel

## CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate** – Microsoft (May 2026)
- AWS Academy Graduate – Cloud Architecting** – AWS (Jan 2026)
- Oracle Cloud Infrastructure 2025 Certified AI Foundation Associate** – Oracle University (Oct 2025)
- Oracle Java Foundation: Training and Assessment** – Oracle University (Oct 2025)

## TECHNICAL SKILLS

**Languages:** Java, Python, C++, HTML, CSS

**Backend & Frameworks:** Spring Boot, Spring, REST API, Microservices, JDBC, Maven, Tomcat

**Cloud & DevOps:** AWS (EC2, S3, IAM, VPC, RDS, CloudFront, CloudWatch, Lambda), Microsoft Azure, Docker, Kubernetes, Jenkins, GitHub Actions, CI/CD, Linux

**Databases:** MySQL, PostgreSQL, SQLite, MongoDB

**AI/ML Tools:** LangChain, FAISS, Hugging Face, Spring AI, RAG, LLM

**Developer Tools:** Git, GitHub, VMware, Vercel, Linux (Ubuntu)

## EDUCATION

**Lovely Professional University, Jalandhar, Punjab** Aug 2023 – Present

B.Tech – Computer Science and Engineering | CGPA: **7.98**

**Shri P.C.S Kishan Inter College Kotkhas, Gonda, UP** Apr 2020 – Feb 2022

Intermediate (PCM) | Percentage: 77%

**Shri P.C.S Kishan Inter College Kotkhas, Gonda, UP** Mar 2019 – Feb 2020

Matriculation | Percentage: 78%
